## Let's talk about Assisted Dressing

We've combined fit and function to make everyone's life easier. Wheelchair-friendly design touches and *easy closures* help you—and your caregivers—start the day with a quick snap, zip and a smile.

00 1 Open Back

### 1. Open Back Top

You'll never have to raise your arms to wear our open back styles. Whether you're seated, lying down or standing, it slips on *easily* and fastens securely in the back. And caregivers won't need to lift or balance you while they help you get dressed.

## 2. Open Back Closure

Caregivers will never have to struggle with our quick snap closures. Placed away from sensitive pressure points, you'll always feel comfortable too.

### For her, from top to bottom:

**Item #25050** - Open Back Fleece Pants. See product details on page 38.

**Item #10250** - *Ultralight Weight Walking Shoe*. See product details on page 65.

### 3. No Peek Panels

Our open back tops, sweaters, jackets, dresses and nightgowns provide a full back overlap, so you always feel warm and completely covered up.

### 4. Longer Hems

We've added an extra couple of inches to all our tops, so they drape nicely, instead of hiking up, while you're comfortably seated.

###

3

### 5. Open Back Pants

These pants are anything but basic. Designed to put on while you're seated or lying down, two large back panels provide coverage and three *easy-to-reach* snaps keep them in place. They're tailor made for those with limited mobility or incontinence.

### 

### 6. Adjustable Width

Many of our styles feature a wide and adjustable fit, so sore and achy feet don't have to struggle to get comfortable. Plus, you'll win all the comfort and security you need if your feet swell throughout the day.

### 

### 7. Smart Hems

All our pants have a wide hem, so sensitive feet don't have to wiggle too much when getting dressed. We're also introducing adjustable hems, which means you don't have to pay extra for tailoring.

### 8. Slip Resistant

The added grip sole on select socks makes walking safe and steady, even on tiles and hardwood floors. P.S. All our shoes are slip-resistant too.

### For him, from top to bottom:

**Item #50780** - Open Back Long Sleeve Polo. See product details on page 30.

**Item #50220** - *Adaptive Open Back Pants*. See product details on page 46.

When you're living with arthritis or lower dexterity and movement, getting dressed can take longer than you're used to. That's why we've introduced thoughtful functionalities, so you can get ready for the day in effortless comfort.

## 1. Magnetic Zipper

You'll be attracted to the ease of our magnetic zipper, which requires less tugging than the usual zipper. This innovation means you'll get zipped up without any fiddling.

### 

### 2. Easy Grip Loops

Your hands and fingers can take it *easy* with these pull-up tabs that are discretely sewn into the waistband.

### 

3. Magnetic Buttons

Magnetic snap-look closures take the stress off of achy hands and fingers. Just press and go.

### Y

4. Easy Grip Zipper

We've added a longer pull tab, which means an easier grip and there's no struggle to get zipped up.

**Item #15100** – *Extra Wide Slippers*. See product details on page 41.

### Ø

### 6. Easy Access Pants

Designed with a simple opening and closure at the side, you can slip these on even when you're seated.

### 

7. Easy Touch Waist Closure

We've replaced traditional buttons with a side closure that's a breeze for sensitive hands.

### 8. Wide Leg Openings

A wider opening means your feet don't need to bend and twist while you're getting dressed. The extra space also means it can accommodate swelling throughout the day.

### 

### 9. Easy Touch Closure

These are made for sensitive hands, thanks to two panels that close shut with a gentle touch.

### 2

**10. Adjustable Width** Take a step forward in total

comfort with shoes that adjust to sensitive and swollen feet throughout the day.
