Adaptive Dressing 101

New to adaptive clothing? Let us teach you about some of our adaptive features you will see throughout the catalog.

Let's talk about Self Dressing

Our Self Dressing styles offer solutions to simplify getting dressed, even if you're facing challenges such as reduced hand dexterity or upper-body mobility.

Magnetic Closures

You'll be attracted to the ease of our magnetic closures, which are hidden away behind a faux button front. You can open and close these shirts with just a touch.

Easy Grip Loops

Your hands and fingers can take it easy with these grip loops that are discreetly sewn into the waistband to easily pull on your pants.

Slip Resistant

Our shoes, slippers and socks have slip-resistant soles to make walking safe and steady, even on tiles and hardwood.

Let's talk about Assisted Dressing

Our Assisted Dressing styles make it easier on you and your caregiver to help you get dressed, whether you're seated, standing or lying down.

Open-Back Tops

Our open-back tops, dresses and nightgowns make dressing easier for those with lowered shoulder and arm mobility. Caregivers can easily slide the sleeves up the wearers arms and secure the garment with simple shoulder snaps. This design avoids the need to lift or strain, reducing the risk of injury for both wearers and caregivers.

Open-Back Pants

These pants are anything but basic. Designed to be put on and taken off while you're seated or lying down, the pants are pulled onto the legs and the two overlapping back panels simply wrap around the waist. All secured safely with easy-to-reach snaps.

Easy Touch Closure

We have added easy touch closures to many of our styles to simplify dressing for you or your caregiver. By switching out tedious buttons and laces for easy touch closures, you can now adjust or fasten shoes and apparel with the touch of a hand.

When you see this symbol, magnets are sewn into the featured clothing, which under some circumstances could lead to DEATH or SERIOUS INJURY and may interfere with implanted medical devices, including pacemakers. Consult a physician before wearing.

Ingestion hazard: If a magnet becomes exposed or clothing becomes worn or torn near magnet, keep out of reach of children and dispose of garments and magnets. If magnets are swallowed, seek medical attention even if the person is not choking.

This shirt and cardigan features Silverts easy magnetic closures. Find out more on page 34!

Firm Footing

Avoid slips and falls with the right footwear.

Looking for a new pair of shoes for yourself or a loved one? Here are some things to keep in mind while you're shopping.

1. Choose a snug fit, but not too tight. If feet can slip around in a shoe, that can cause a fall or loss of balance—but shoes should never be so tight they cause discomfort.

2. Think lighter. Heavy shoes can lead to shuffling, which increases your chance of falling. So, look for supportive and comfortable, not rigid and bulky.

3. Avoid thick sporty treads that really grip, as they can snag on the ground as you walk. Instead, look for a shoe that feature a 'slip-resistant' sole.

Easy Wear Extra-Wide Comfortable Walking Shoes

We designed these classic leather shoes with easy grip loops and easy touch closures, so you can get out the door sooner. They're also wider than they look, with removable spacers to accomodate orthotics or foot swelling.

- A. Navy
- B. Black
- C. Chestnut

Trouble sleeping?

Here are some tips to help you sleep.

Getting a good night's sleep starts way before bedtime. Begin with a regular routine—get exercise and go to bed at the same time every night. Be sure to avoid late naps, caffeine and drinking (especially alcohol) later at night. Blue-light devices (tablets and phones) should stay out of the bedroom. And, remember: if you're still tossing and turning after about 20 minutes, get out of bed and unwind, and only go back when you're sleepy.

Gift giving is good for you?

According to research from the Cleveland Clinic, giving can be good for your physical and mental health—by giving you a boost in mood-lifting chemicals like serotonin, dopamine and oxytocin. “When we do things for other people, it makes us feel much more engaged and joyful,” says Clinic psychologist Susan Albers. “That’s good for our health and our happiness.” In fact, giving can lead to lower blood pressure, less stress and even longer life!

We've got you covered

Keep in mind many of our bra/shoe styles vary slightly in sizing, so it is best to review the product's specific size chart. This can be found at silverts.com on the product's page, just below where you click to choose your size.

Shoe Sizes 101

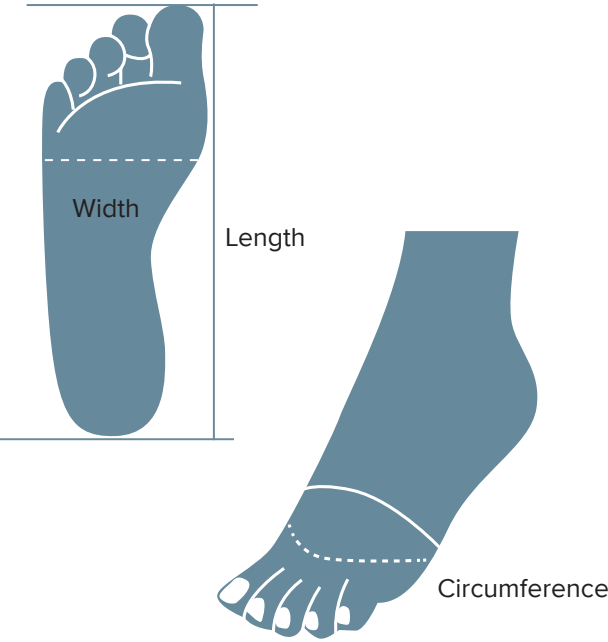

Here's how to find your adaptive-footwear size

Adaptive footwear is easy-on, easy-off, making it perfect for caregivers and people with mobility or manual dexterity challenges. Our shoes also adjust to accommodate swelling or orthotics, to ensure all-day comfort.

A good fit is key to making the most of these design features. Here's how to find your adaptive-footwear size.

- 1 Measure the length, width and circumference of your feet.
- 2 Find your adaptive-footwear size by comparing the measurements of your larger foot to our Shoe Size Chart.
- 3 Or, when browsing online, select a shoe, then click on "Size Chart" for a simplified chart that shows sizing for that product.

Visit silverts.com/size-chart for step-by-step instructions.

Introducing True Fit

Our new shoe collection features True Fit, an easier way to customize your footwear size.

Too snug? Remove a spacer or two.

Too loose? Stack a spacer or two under the insole.

You'll find the True Fit icon beside shoes that offer this feature.

WOMEN

Width adjusts from B to 2E

MEN

Width adjusts from D to 4E

Happy Feet

There's no mystery why Silverts footwear is so popular! Our bestselling, extra-wide shoes and slippers open all the way so you can slip them on easily. And it's a snap to adjust them throughout the day to accommodate sore, swollen feet.

A. Convenient touch closures allow the shoe to be fastened and adjusted with ease.

B. Rubber grip soles help prevent potential slips and falls on dry or wet surfaces.

C. Spacer insoles can be added or removed to change the width from regular to extra-wide.

90+ years of business & celebrating 20+ years of online excellence.
