Spring Forward

There's a fresh and sunny feeling in the air that's full of hope and gratitude. And we want to say thank you for trusting us to help you and your caregivers live with less stress and more joy.

With open hearts and big ideas, the Silverts team supports everyone at every age and stage on their adaptive wear journey. We've put in the work to understand the various needs and conditions of our customers, so we can create products that make everyone's day easier. We're obsessed with the details, like magnetic buttons that make it easy on achy fingers, or open back tops that slip on in a snap. To learn more about our innovative design, turn to page 4.

For Spring, we're indulging in looks that deliver fit, function and comfort. Starting on page 27, you will find all weather essentials for any temperature and time of day, from linen capris with easy grip loops for backyard brunch to open back fleece pants that will keep you warm at the movie theatre. Also, discover our selection of fresh essentials for Assisted Dressing needs on page 9 and Self Dressing needs on page 41.

When you spend less time worrying about doing up a button or a zipper, you have more time to enjoy life with your loved ones, which is an extra-special gift when hugs are finally back in style.

Let's Define Adaptive

Our assisted dressing styles feature innovations that make it easier on you and your caregiver to help you get dressed. Our self dressing styles have functions to help you get dressed on your own with more comfort and less stress.

Assisted Dressing

Let's talk about Stroke Recovery

On your road to recovery, you'll need clothes that are easy to get on and just as easy to get off. Whether you are living with limited mobility or seated in a wheelchair, our assisted dressing options are your ideal fit.

1. Open Back Top

Our open back tops, sweaters, jackets, dresses and nightgowns can be secured easily at the shoulder with a snap. Overlapping back panels always keep you warm and covered up.

2. Open Back Pants

These pants are anything but basic. Designed to put on and take off while you're seated or lying down, two large back panels provide coverage and three easy-to-reach snaps keep them in place.

3. Smart Hems

All our pants have a wide hem, so sensitive feet don't have to wiggle too much when getting dressed. We're also introducing adjustable hems, which means you don't have to pay extra for tailoring. You'll find these smart hems in our self dressing styles too.

4. Slip Resistant

The added grip sole on select socks makes walking safe and steady, even on tiles and hardwood floors. P.S. All our shoes are slip-resistant too.

For him, from top to bottom:
Item #50780 - Open Back Long Sleeve Polo. See product details on page 30.
Item #50940 - Adaptive Open Back Pants. See product details on page 46.
Item #19140 - Non-Slip Socks. See product details on page 77.

Visit silvert.com/shop-by-need to discover adaptive clothing and footwear for various conditions and needs.

Self Dressing

Let's talk about Arthritis

We understand that when arthritis strikes, everyday movements become more difficult, like doing up the buttons on your favorite shirt or tying your shoelaces. We're here to help with design innovations that make dressing independently easier.

1. Magnetic and Easy Grip Zipper

You'll be attracted to the ease of our magnetic closures. With a longer pull tab, our magnetic zipper is also easy to grip. It requires less tugging and you'll get zipped up without any fiddling.

2. Easy Grip Loops

Your hands and fingers can take it easy with these grip loops that are discretely sewn into the waistband to easily pull on your pants.

3. Hand Relief

Our compression gloves help manage the pain and inflammation in your hands, with a thermal fabric that soothes achy joints and wrist bands for extra support.

4. Easy Touch Closure

These are made for sensitive hands, thanks to two panels that close shut with a gentle touch.

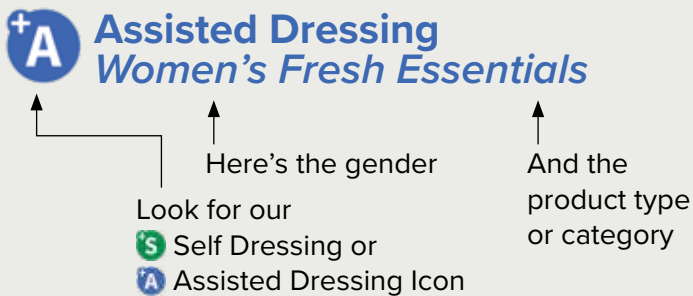

For her, from top to bottom:

Quick Start Shopper's Guide

When you see this symbol, magnets are sewn into the featured clothing, which under some circumstances could lead to DEATH or SERIOUS INJURY and may interfere with implanted medical devices, including pacemakers. Consult a physician before wearing.

Ingestion hazard: If a magnet becomes exposed or clothing becomes worn or torn near magnet, keep out of reach of children and dispose of garments and magnets. If magnets are swallowed, seek medical attention even if the person is not choking.

Assisted Dressing

Say hello to Spring with clothing and footwear that will help you embrace the season with style, function, and comfort. Discover our open back solutions on tops and bottoms that are less stressful for caregivers while always providing carefree comfort for you, even when you're seated in a wheelchair or standing with the support of a cane.
