A

Let's talk about Assisted Dressing

Our Assisted Dressing styles feature innovations that make it easier on you and your caregiver to help you get dressed, whether you're seated, standing or lying down.

1

Open Back Top

Our open back tops, dresses and nightgowns make dressing easier for those with lowered shoulder and arm mobility. These pieces can be secured easily at the shoulder with a snap. Overlapping back panels reduce risk of injury or strain to wearers and caregivers by avoiding the need to lift or stand up to get dressed.

2

Open Back Pants

These pants are anything but basic. Designed to be put on and taken off while you're seated or lying down, the pants are pulled onto the legs and the two overlapping back panels simply wrap around the waist. All secured safely with easy-to-reach snaps.

3

Easy Touch Closure

We have added easy touch closures to many of our styles to simplify dressing for you or your caregiver. By switching out tedious buttons and laces for easy touch closures, you can now adjust or fasten shoes and apparel with the touch of a hand.

S

Let's talk about Self Dressing

Our Self Dressing styles offer solutions to simplify getting dressed, even if you're facing challenges such as reduced hand dexterity or upper-body mobility.

4

Magnetic Closures

You'll be attracted to the ease of our magnetic closures, which are hidden away behind a faux button front. You can open and close these shirts with just a touch of your hand.

5

Easy Grip Loops

Your hands and fingers can take it easy with these grip loops that are discreetly sewn into the waistband to easily pull on your pants.

6

Slip Resistant

Our shoes, slippers and socks have slip-resistant soles to make walking safe and steady, even on tiles and hardwood.

When you see this symbol, magnets are sewn into the featured clothing, which under some circumstances could lead to DEATH or SERIOUS INJURY and may interfere with implanted medical devices, including pacemakers. Consult a physician before wearing.

Ingestion hazard: If a magnet becomes exposed or clothing becomes worn or torn near magnet, keep out of reach of children and dispose of garments and magnets. If magnets are swallowed, seek medical attention even if the person is not choking.

Phyllis's story

An Alzheimer's diagnosis sparked Phyllis Fehr's unique journey of advocacy and empowerment

"It's funny, because growing up I was always the quiet one. I never really spoke a lot. I never was the one to go out and be involved in things," says our cover model, Phyllis Fehr.

Phyllis's life was transformed in her early 50s. "When I got the diagnosis of dementia when I was 53—I'm 63 now—I thought: things need to change for people living with dementia, and how people see dementia. I made a conscious effort to be more open and out in the public eye about dementia," she says.

Today, the retired nurse is Dementia Advocacy Canada's Human Rights Action Team Lead and a public speaker for the Alzheimer Society of Canada. Recently, she attended the United Nations as a member of its civil delegation reporting on the Convention On the Rights of Persons with Disabilities. She also helps researchers—and the public—by sharing her lived experiences. "We need to change how people see us living with dementia... I'm living my life to its fullest and people need to know that I'm living with it, and I'm moving forward."

About Our Sleepwear

When you're comfortable, you're confident, capable and relaxed. That's why we designed our sleepwear for softness, breathability and ease of dressing. Slip into nightgowns, nightshirts and pajama sets designed with smart features like privacy-ensuring back panels, easy-to-pull loops and shoulder closures that avoid pressure points. Our sleepwear collection is what relaxation is all about!

Our Featured Dressing Solutions

Pajama Sets

Open Back Closures

Your caregivers will never have to struggle with our quick-snap shoulder closures. The snaps are placed away from sensitive pressure points to ensure you feel comfortable sleeping or lounging in any position.

On him: Pajama Set (#704)

Easy-Grip Pull-On Loops

Our oversize loops make pulling the pant up easier for caregivers or wearers with limited hand dexterity. The fabric loops tuck discreetly out of sight when they are not in use.

Here's how to find your adaptive-footwear size

Adaptive footwear is easy-on, easy-off, making it perfect for caregivers and people with mobility or manual dexterity challenges. Our shoes also adjust to accommodate swelling or orthotics, to ensure all-day comfort.

A good fit is key to making the most of these design features. Here's how to find your adaptive-footwear size.

- 1 Measure the length, width and circumference of your feet.
- 2 Find your adaptive-footwear size by comparing the measurements of your larger foot to our Shoe Size Chart.
- 3 Or, when browsing online, select a shoe, then click on "Size Chart" for a simplified chart that shows sizing for that product.

Visit silverts.com/size-chart for step-by-step instructions.

Introducing True Fit

Our new shoe collection features True Fit, an easier way to customize your footwear size.

Too snug? Remove a spacer or two.

Too loose? Stack a spacer or two under the insole.

You'll find the True Fit icon beside shoes that offer this feature.

WOMEN

Width adjusts from B to 2E

MEN

Width adjusts from D to 4E

Easy Touch Closure

Swollen and sensitive feet need extra TLC. Our easy-closure slippers and shoes open all the way—right down to the toes and sides—so tender feet can be gently secured and swaddled, never squished into place. There are no laces or snaps to fiddle with, just simple touch-closure flaps.

Easy Grip Loops

Skip the laces with our easy-grip loops. These generously sized loops are easy to handle, even if your hands aren't as nimble as they used to be. We use this adaptive feature on both our pull-on and easy-touch closure footwear, making both options more user-friendly right from the get-go.

Slip Resistant

We want you to feel confident and secure with every step you take. That's why we've road tested our shoes and slippers to ensure they provide slip resistance on dry and wet surfaces. Paired with our extended heel design, the result is enhanced stability, balance and safety.

Adjustable Width

Get comfortable in our extra roomy footwear. Our extra-wide shoes and slippers are gentle on bunions, corns and hammertoes. They're also eminently adjustable (from B to 2E width for women, and D to 4E width for men) to accommodate edema, swelling and orthotics. Use our True Fit system and easy-touch closures to customize the fit until your feet are happy!

Extra-Wide Easy Closure Slippers

Swollen, sensitive feet deserve extra TLC. Every flap on this flexible style unfolds all the way to the toes, so there's no struggle when slipping these on.
